

Effective DNA & RNA decontamination in one
DNA/RNA-ExitusPlus™ – Without a trace
 A must for all genetic and forensic analysis

- Fast and safe decontamination of free nucleic acids
- Effects of the components cause a very rapid non-enzymatic, non-sequence-specific degradation of **DNA** and **RNA** molecules
- Non-toxic nor even harmful for humans
- Equipment and materials are not damaged or corroded by **DNA/RNA-ExitusPlus™**
- No aggressive acids or alkaline substances
- No toxic fumes are released
- All components are biologically degradable
