

PRODUCT CODE: 212520

General Absorbent technical grade

TARIC 2839 90 00 90

PHYSICAL DATA: Small granules, Greyish, Insoluble in water pH(10% sol.)9 - 10 •

INSTRUCTIONS FOR USE: Sprinkle over any spilt product, in sufficient quantity to cover the affected area generously. Carefully stir with a spatula. Once absorbed, collect up with a plastic scoop. Wash the affected area with water, or with acidified or alkalinized water, in line with whether the spill is neutral, alkaline, or acidic respectively. Lastly, wash the area with plenty of detergent and water. The absorbed mixture should be properly treated before disposal.
